

Special Webinar

NJEDAs Small Business Emergency Assistance Grant Program

The New Jersey Economic Development Authority (NJEDA) recently announced \$50 million in new funding and broader eligibility criteria for the **Small Business Emergency Assistance Grant Program**. Under the newly-expanded program, which will provide grants up to \$10,000 for COVID-impacted businesses, a wider variety of businesses will now be eligible, including home-based businesses and sole proprietorships. The program will also feature a special focus on businesses in Opportunity Zone-eligible census tracts.

The New Jersey Business & Industry Association, the New Jersey State Chamber of Commerce, the Chamber of Commerce of Southern New Jersey and the Commerce & Industry Association of New Jersey are partnering for a special webinar conversation with NJEDA CEO Tim Sullivan, on **Friday, June 5, 1:00 – 2:00 pm**. Our goal is to provide valuable insight to the expanded grant program.

Please join us for this important information-packed webinar to learn what your business needs to survive during this crisis and come out stronger on the other side.
